

Digging in for a good cause

Senior Minister Goh Chok Tong laying the groundwork for a Sea Gutta Tree – known for its many uses, including medical properties – to blossom.

The occasion last Friday was the opening of ComChest Green, a new section of the Labrador Nature Reserve that offers a sea view for the young, the old and people with disabilities to enjoy.

In conjunction with the opening, corporate sponsors including NTUC FairPrice Foundation and the Tan Chin Tuan Foundation donated more than \$1 million to the 147 social service programmes supported by the Community Chest.
