Tan Chin Tuan Nursing Award for Enrolled Nurses 2015

The Tan Chin Tuan Nursing Award for Enrolled Nurses is Singapore's highest accolade for Enrolled Nurses.

This year, TTSH is honoured to have two accomplished nurses receive this distinguished award: Principal Enrolled Nurse Mageswary D/O Thambirajah, who is the second nurse in TTSH history to be the first runner-up, and Senior Assistant Nurse Usha D/O Kumaran. Congratulations, Mages and Usha! We're proud of you! smile emoticon

The foundation for Usha's success has been her motivation to constantly seek new ways to upgrade her skills, resulting in her excellent knowledge in her role and responsibilities. For example, Usha is a certified nurse in Fibro Scan and bladder scan procedures, which are traditionally conducted by Registered Nurses.

Beside her dedication and commitment to her job, Usha is well-liked and seen as a leader and motivator by her colleagues. She is generous in sharing her knowledge with her team, and in guiding them to deliver beyond what is required for the good of the patients.

This distinguished award shines a well-deserved light on Usha's wonderful work ethic and leadership capabilities.

Tan Chin Tuan Nursing Award for Enrolled Nurses 2015 Tan Tock Seng Hospital

With over three decades of experience, Principal Enrolled Nurse Mageswary is a familiar, well-loved, and well-respected face in Ward 9A. Her passion for patient care is best exemplified in this quote from her patient: "Every time I see you on duty, I feel comfortable and at ease. I know I am in good hands."

Mageswary's drive to learn led her to become NHG's first Enrolled Nurse to be certified as a Clinical Instructor - a role usually reserved for Registered Nurses. As a Principal Nurse, Mageswary manages a full load of patients within the ward, and can be counted on to go the extra mile to ensure that patients are well looked after.

Her dedication and passion are exemplary, and she truly deserves the distinction of this award. Congratulations, Mageswary!

The foundation for Usha's success has been her motivation to constantly seek new ways to upgrade her skills, resulting in her excellent knowledge in her role and responsibilities. For example, Usha is a certified nurse in Fibro Scan and bladder scan procedures, which are traditionally conducted by Registered Nurses.

Beside her dedication and commitment to her job, Usha is well-liked and seen as a leader and motivator by her colleagues. She is generous in sharing her knowledge with her team, and in guiding them to deliver beyond what is required for the good of the patients.

This distinguished award shines a well-deserved light on Usha's wonderful work ethic and leadership capabilities. Congratulations, Usha!
